

FINAL CONFERENCES OF THE MIGRANTECH PROJECT PARTNERS

Each partner of the Migrantech project had to organize and present a final conference, which had to last one day and meet a target of 70 participants. The main objective of this conference is to present the platform and its tools, on which 4 partners have worked: AMSED, the main coordinating association, Anatolia Youth Association in Turkey, Familles du Monde in Belgium and Factor Social in Portugal. More specifically, it is about disseminating and exploiting the project results (IO1 for the competencies' study, IO2 for the Good Practices handbook, IO3 for the e-modules' creation, IO4 for the e-platform conception and IO5 for the E-learning guide for e-tutors) and dissemination products.

Local, regional, national and European stakeholders have been invited.

AMSED

AMSED organized its conference on Thursday, October 20 at 4:30 pm until 21:00 pm, which brought together several partnerships, from local to international level such as GESCOD, Transcend, the elected officials of the Eurometropole, the association TESLAB which works with young people in the QPV neighborhoods, Association Alsace Syrie, the association GSI, etc. The objective being to have a multiplying effect of the results of the project at different scales. A journalist wrote an article about the event! Another conference is planned October 28.

AYA organized the final conference in Izmir, on Friday 14th of October, 2022 from 10.00 to 16.00 . The morning session was dense with many speakers: an opening speech by AYA president Figen Seyhan Drezet; presentation of Migrantech project in details by Djilali Kabeche, the president of the coordinating association; presentation of the partners AMSED, FamiDo and Factor Social by their representatives, regarding their experience in the project; speech of the president of the local partner of AYA, SMDD; testimonials of the persons who were involved in different steps of the project and lastly, the interactive presentation of the navigation of the platform by AYA project manager H.Ekrem Ulus . The participants could register simultaneously on the platform and navigate through the platform. After lunch, there was a feedback session from stakeholders and other entities interested in the project, NGOs, employment workers, elected people from the city councils, refugees implicated in the project and participants. At this stage, many positive feedbacks were pronounced by the speakers. The conference ended with a short discussion on the Erasmus Plus KA2 projects in general, questions and answers on trainee mobility opportunities for young people who are interested in such projects. The Classical Turkish Music performance during the coffee breaks and lunch added a cultural value to the dissemination.

FAMILLES DU MONDE

Familles du Monde asbl organized the last dissemination in two conferences. The first one took place on the 2nd and the other on the 18th of October.

As the conferences lasted one day, several interactive workshops were planned to facilitate the learning and comprehension of the project. The workshops were divided by the different component of the project (the objectives, the calendar, the 19 transversal competences, the recommendations, testimonies, the 40 e-modules by categories, the platform, the toolbox, networking, etc.) This interactive and dynamic methodology was appreciated by the participants! It enabled them a better understanding of the objectif and enabled them to share their own use of the platform in their job/life, as migrants or professionals working with migrants or as decision maker.

Lastly, we had a beautiful concert at the end of the first conference that brought the people together!

Factor Social organized the conference on 30 of September in Lisbon, Portugal, from 10 a.m. to 4.30 p.m. This conference was attended by asylum seekers, VET's, social workers and organizations that work with migrants. At the beginning there were activities to relax and get to know each other. We had the presentation of each partner, the various phases of the project, all the materials found on the platform, the 40 e-modules and the platform. After lunch time, there were two activities that helped to keep us active. Afterwards, the participants could test the platform and give feedback and ask questions.
