## E-TUTOR TRAINING IN BELGIUM

After the international training in Turkey (June 2022), each partner had the task to train at least 20 new e-tutors of the Migrantech platform. FaMiDo organised in Belgium **three sessions** and trained **21 new e-tutors**. The aim was to provide tailor-made e-learning tools and methods for professionals working with migrants and refugees, in order to facilitate their socio-professional inclusion;

### PROGRAM OF THE DAY

#### INTRODUCTION

We started with a short presentation of the project : objectives - calendar - results.  
We also briefly presented the 4 partners  
Before starting the activities, we also made the objectives of the training clear.

#### PART 1 : THE E-TUTOR

What is an e-tutor? What do we expect from an e-tutor? In groups, the participants defined the knowledge, attitude and skills of an e-tutor. The Migrantech e-tutor Charter was presented

#### PART 2 : THE CONTENT

What does the Migrantech e-tutor need to know? We detailed their knowledge on the modules and tools of the platform.

#### PART 3 : THE ACTION

The participants tested the role of e-tutor in pairs.

#### CONCLUSION

We had a debriefing on the experience and learning and agreed on the future : how will they use the platform and be e-tutors.

This activity of the project was a **one day-training**. Each sessions, e-tutors trained in Turkey or Belgium (for the 2nd and 3rd session) were present to support the learning of the new ones. We had about 12 participants/session. Their mixed background made the interactions very enriching.

# THE PARTICIPANTS

The background of the participants was varied. They all shared their experience and knowledge between each other, making each participant more "complete" in their role as e-tutor.

Familles du Monde asbl trained :

- professionals working with migrants from Brussels's institutions.
- members of ngo working in the socio-professional inclusion of migrants.
- the team who created its modules on the platform.
- several volunteers of Familles du Monde asbl.

# IN THE FUTURE

Because of the demand, Familles du Monde asbl will still organise other e-tutor trainings in the future. There are still people interested and as some of them are not living/working in Brussels, online trainings will take place.

It is also planned to organise meetings between e-tutors, to share knowledge and experience with the varied team that is being set up!
